

New Bern Avenue

401 ~ 411 New Bern Avenue

New Bern Rehabs

Over the last several years, the City used affordable housing bond funds to purchase and renovate three houses on the north side of the 400 block of New Bern Avenue adjacent to the downtown commercial core.

These houses were converted into duplexes, offering two or three bedrooms and two bathrooms. The renovations and landscaping of the three houses provide a dramatic improvement along this well traveled one-way corridor.

The contractor was RD Construction. Maurer Architecture and Peyton Holloman designed the renovations. The houses are located in the New Bern/Edenton Redevelopment Area.

If you are interested in renting one of these duplexes, please contact Barker Realty at www.barker-inc.com or 919-859-0044.
